MANAGING DIRECTOR'S LETTER TO SHAREHOLDERS

(In conversation with Mr. Jayanth Viswanathan, Company Secretary)

1) What is the reason for the dip in the current year performance?

Your company is the Pioneer in the industry. We have grown tremendously in size since inception. This year we have not been able to achieve as we had expected. The reason for the dip is attributable to three imperative reasons -Recession, Labour Shortage and Power shortage. Our industry being a power intensive industry and with severe shortage of power in the country and in particular in Tamil Nadu, we have not been able to capitalize on the orders available with us. As far as Labour is concerned, our industry requires more of semi-skilled and Skilled labour. The demand is higher than the supply and attrition levels are very high. Recession is also another factor which has hit us hard as we are also an export oriented company.

2) Why is there no dividend in the current year?

As I just mentioned the factors for the decline they have had an impact on the operational profits of the company. Even a conservative dividend of about 5% would mean paying around Rs. 40 lakhs on the equity shares. This effectively means that the entire profit would have to be paid out; which would have an impact on the cashflow of the company. Thus your Board has decided to skip the dividend for this year. However I am very confident that this shall not be the case in the coming years as the market trends seems upwards and we are looking for opportunities in various other sectors too.

3) OK, now that you have got into the topic of looking into various sectors, In the previous year's Annual report, you had mentioned "We have a Goal to become a successful Multi Activity Company" What are the steps taken towards achieving it?

Primarily we see Multi Activity Company on the following counts:

- A. Increasing product mix within Jumbo Bags, that is to say, conductive bags, dissipative bags, clean room bags etc and focus on increasing the percentage of sales in terms of quantity also.
- B. We have been appointed as the Del – Credere Associate cum Consignment Stockist for Tamil Nadu, Pondicherry and kerala by Indian Oil Corporation Limited (IOCL), this is one major breakthrough for Jumbo Bag Ltd to grow in the business of trading of polymers.
- C. Find new avenues in trading, one of them is supply of LDPE which is complementary to IOCL business.
- D. Multi Layer Co-Extrusion – This is a new Liner plant which is capable of producing liner for various applications like Milk Packaging, Oil Packaging, Shrink films, cling films etc, We are in the process of evaluating the potential and prospects of this product.

4) What are the new objects that are included in the main objects of the company?

We, at Jumbo Bag have a vision to be a Multi Activity Company towards which we are already working on implementing some of the proposed new object in the current year about which I was just mentioning.

One other major object we have included is to generate power through various sources like Steam, solar, tidal and wave, Wind, Bio mass energy etc. Tamil Nadu has been witnessing serious power shortage. Our manufacturing process is power intensive. Although we have private power available, there are restrictions in usage of private power. Also, it is more expensive than grid power.

In order to mitigate this risk we want to explore the possibilities of using alternative power sources.

5) How exactly will all these new introductions benefit the company?

Basically diversification of product per se is mitigation of risk and also broadening the vision of the company. We at Jumbo Bag are always looking for opportunities in the packaging sector. Our goal is to become One-Stop-Solution for packaging where we want to be a key player in different sectors of packaging. These new objects are enabling factors for us to achieve our goals within the desired time.

6) Fine, so where do we go from here?

The order position is very positive. We are working on scaling up the production and are hoping to make impact in the new product lines and avenues we have chosen. All these will lay foundation for improved results in current year and excellent results in the future years.

As I mentioned earlier, Power is a major concern. In order to immediately curb this we have entered in a private power purchase agreement to meet the shortfall in power which enable entitle us to increase our capacity utilization. Should this scheme be operational throughout the year during period of power holiday, it shall be highly beneficial as it will reduce the fuel consumption.

Considering all these factors, I am highly confident that your company will in the coming year have an improved top line and will enable us to have a positive bottom line.

7) What is your final message to the share holders?

Your company has taken many steps in the year 2009-10. There has been a focus on measures to improve productivity, add new avenues of trade that should help your company to perform well & the end results shall add value and benefit the Share Holders.

Finally I would like to quote Swami Vivekananda Winning Formula:

“In all our actions errors and mistakes are our only teachers. Who commits mistakes, the path of truth is available to him only. Trees never make mistakes nor do stones fall into error, animals are hardly seen to transgress Law of Nature. Go Forward Assert yourself again and again and light will come “

With Brightest Hopes and Warm Regards

MANAGEMENT DISCUSSION AND ANALYSIS

World Economy:

The economic crisis that we all anticipated would come to an end in the year 2009-10, seems to be imaginary as it has still significantly impacted global economic growth. According to World Economic Outlook update published by the International Monetary Fund the advanced economies were projected to record a 2 percent decline in output in 2009, while India's growth projections has been lowered from 6.3 to 5.1 percent and that of China from 8.5 to 6.75 percent.

IMF had projected that trade volume would reduced by 11.9% in the year 2009. It has also projected that imports into advanced countries would fall by 13.7% and exports from emerging economies would decline by 7.2% in the year 2009. WTO had projected that the global trade would fall 10% in the year 2009.

In the year 2010, world output is expected to rise by 4 percent. Growth in emerging and developing economies is expected to rise to about 6 percent in 2010, following a modest 2 percent in 2009. IMF informed in its world economic outlook that Indian economy is likely to register a growth of 6.5 percent in the year 2010 while China's growth rate will be around 8 percent.

In most of the advanced economies, the recovery is expected to remain sluggish by the past standards, whereas in many emerging and developing economies, activity is expected to be relatively vigorous, largely driven by buoyant internal demand.

According to the International Monetary Fund, the global growth is projected at an impressive by 4 percent in the year 2010. Meanwhile, United States is likely to bounce back to grow by around 1.6 percent, the Euro and the UK projections for growth stood at a minuscule 0.2% and that of Japan by a somewhat better 0.6%.

INDIAN ECONOMY:

The impact of the global economic and financial crisis on India in the year 2009-10 operated through three channels:

- The financial channel which diminished the ability of Indian Companies to mobilize equity and debt in foreign and domestic market;
- The trade channel which operated by eroding the import demand in developed economies and
- The collapse of business and consumer confidence in the developed economies, which depressed sentiments worldwide, unfortunately including India.

Indian economy is impacted by the slow recovery of export demand from the developed economies. The principal risk that emanates from global economy for India is inflation contagion, with crude oil prices once again in the lead. The other risk is the possibility of another setback to the world of finance, where even a small failure amplifies capacity for destabilization.

Today the Indian economy is also primarily constrained by a shortage of physical infrastructure, of which the single most important item is electricity. Shortage of electric power not only leads to direct loss of production, but also results in inefficiencies in a broad range of areas impacting profitability and competitiveness. Government being the largest and the most important player in production, transmission and distribution of power needs to take immediate corrective action to set it in the right path.

Industry Outlook:

With the world and the Indian economy taking a hit, packaging industry is no exception to it. The major consumption centers are Europe and America and they have taken a hit in the recessionary year.

The Indian industry which depends highly on exports to USA and Europe has taken a big hit due to the recession.

As for exports, with gradual rejuvenation of global economy, the export is expected to show a remarkable growth in the first half year of 2010. However, with the uncertainty of global economy's recovery gone, consumption behavior and demand is expected to undergo a sea change in the next few years.

Fibc Market

Flexible Intermediate Bulk Containers (FIBC) are widely used in the package of products such as powder. Granule and block for transportation, cement, chemicals, mineral products etc.

FIBC USAGE

India FIBC Market & Growth Rate

Source : Freedonia, PP/HDPE Woven Sack News, Company Data

Indian FIBC Industry is the third largest producer in the world. Indian producers are supplying to virtually every country across the globe. While the primary mode of selling overseas is through resellers, direct supply to end users is increasing. Indian companies are now participating in worldwide bids for supply across continents.

There are clear trends emerging towards migration of FIBC production to India and China, primarily on three counts:

- Both of them have been able to produce bags of quality, matching the stringent requirement of the west.
- The significant cost advantages compared to manufacturing in developed countries.
- Turkey, a major producer of FIBC, due to its increasing cost of manufacturing, is also losing its market share; some of them are outsourcing and/or have started operations in low cost countries.

Since India is a growing economy there is an increased requirement of Industrial packaging. Because of the increase in modernization of plants, large industries are moving from trading in 25-50 Kg bags to 1-2 Metric Tonnes Jumbo Bags.

SYNOPSIS OF JUMBO BAG LIMITED

Synopsis on growth of JBL:

Jumbo Bag Limited (JBL), a unit of BLISS Group of companies, was incorporated in the year 1991-92 and came into operations in the year 1994-95. JBL was established primarily for manufacture of Flexible Intermediate Bulk Containers called Jumbo Bags. JBL produces variety of bags to cater to the bulk industrial packaging requirement. These products are custom-made to meet customer's specific requirements. The bags are flexible as they are made out of Polypropylene and weighs between 1-5 kgs and can handle weights ranging from 500 kgs to 2,000 kgs . The bags are used in various industries and come with various options based on usage and material handled.

Over the years JBL has made significant strides in product development and currently produces several varieties of Jumbo Bags in various section namely; Regular, Value Added and Speciality. Besides, JBL also produces Container liners which are used for bulk transportation.

JBL has been making rapid strides in the recent years and has been growing steadily since its inception. The introduction of several value added and speciality products in the recent past has enabled JBL to make inroads into several new markets besides placing JBL in a strategic position to achieve substantial growth.

Among various Jumbo Bags, your company has developed groundable bag with in-house technology successfully tested in European laboratories.

Your company has also installed equipments to match European design. Apart from this your company has also developed dissipative products in association with a European company for the U.S dissipative market.

As Jumbo bags gains prominence in the existing markets in India, there is a lot of effort already being made to penetrate new markets which have huge potential in the future.

Tapping High Potential Markets

Cement: Infrastructure is growing at a phenomenal rate in India and Cement being the basic raw material offers a huge potential. More and more manufacturers are starting to adopt bulk transportation that will facilitate cost savings.

Food: Several food and related products are being packed and transported in Jumbo Bags. These include Organic and Regular Rice exported in Jumbo Bags. Other significant developments are Sugar, Cashew, Coffee, Gelatin, which are also exported in Jumbo Bags, and has the potential to reach huge volumes.

Alumina: The Country is today producing surplus alumina, which is being exported. This trend is likely to continue with the establishment of green field export oriented alumina refineries.

Diverse Markets:

JBL's market is diversified in terms of Geography, Product Categories and Usage Industries. JBL has already supplied many products for usage in several industries to more than 30 countries in 5 continents of the world. JBL has a very good mix of these three constituents to provide diversity in the market such that the downturn in any particular geography will limit the impact on its operations.

REVIEW OF OPERATIONS:

Your company's performance has suffered a decline in the year due to recession. Both the export sector as well as the domestic market suffered a hit as our domestic sector market is also export dependent. While the order position improved from the 3rd quarter onwards, your company was constrained to utilize the capacity due to continued power problems and shortage of labour.

The West Bengal State Electricity Transmission Committee (WBSETC) wanted to acquire a major portion of the land purchased by the company. After protracted persuasion and discussion that WBSETC has agreed to release all but 1.4 Acres of the land.

Despite submission of our application for conversion of land along with the release letter and the final drawing, we are yet to receive the Conversion Certificate from the district Magistrate, Midnapore District.

In view of the same your company's expansion project at Kharagpur has been deferred.

However, things have turned positive with good order flow, improvement in orders for value added bags.

Your company is focused therefore on extending its export reach into newer markets as broad based market would make the company less vulnerable to market forces.

DCA CUM CS FOR INDIAN OIL CORPORATION LTD

Your company is pleased to inform you that it has been appointed by IOCL as one of its Del – Credere Associate cum Consignment Stockist for Tamil Nadu, Pondicherry and Kerala. Petrochemical is a vast field and India is still in the nascent stage of growth. The world's annual consumption of plastic materials has increased from around 5 million tonnes in the 1950s to nearly 100 million tonnes today. The per-capita consumption of plastics in India is 5 Kgs as against 18 Kgs in China. The potential for growth is therefore very large and would be a good business segment for your company to be in. The current Indian suppliers for polymers are Reliance Industries Ltd; Haldia petrochemicals Ltd and Gas Authority of India Ltd. IOCL is entering into this space with a capacity of 1.25 million tonnes per annum of PP and PE put together and would prove to be a catalyst to growth in the polymer processing sector with sufficient supply of raw material.

Discussion on Financial Performance

The Profit before tax of the Company for the year 2009-10 has reduced to Rs. 59.19 Lakhs. The Broad reasons for reduced financial performance are:

- Lower sales due to recession in the Global Market.
- High incidence of Fuel cost to a large extent due to power shortage in the state.
- Lower utilization in the second half of the year due to lack of power supply and shortage of skilled labours.

SWOT analysis:

Strength:

- JBL has diverse markets covering Customers in more than 30 countries in 5 continents.
- The Board members of JBL have multi-faceted professional experience & expertise in the various segments of the Industry.
- Accredited under various industry standards.
- ISO quality standards, systems and environments.
- Expertise to manufacture Value-added & Specialised bags.
- Good R & D facilities that has come out with new value add bags.
- Increased requirement of Industrial Packaging in India.
- We are at the beginning of a upward market cycle for the next 15years.

Weakness:

- Industry is highly labour intensive which may lead to attrition issues.
- High lead time for shipments to Europe and USA could be a deterrent to a number of customers
- Power cuts resulting in less utilization of full capacity of machineries.
- Yet to be highly competitive in the world market and satisfy the ever increasing demands of the clients.

Opportunity:

- World wide ever increasing high demand.
- Major production centers in Europe and in particular Turkey are downsizing due to high cost of production.
- India and China are positioned to get bigger share from the production downsized European markets.
- Exploration of new growing markets in Africa and South America, where FIBC business opportunity is tremendous.
- Market share: Increasing the market share in the world market especially in the value added and the Speciality segment, which comprises of about 1/10th of the total FIBC market in terms of volume.
- Product Mix composition: The introduction of several value added products and Speciality products in the JBL's stable is expected to have a significant impact on the profitability.
- Direct Marketing: Creating a direct marketing channel to our American and European customers will have significant advantages including direct access and serviceability to the customers.
- Business Model: JBL's Business model is based on the nature of the customer's requirement and preferences. Moving to a more structured customer base will facilitate synergy in operations and also improve the production process and productivity.

Threat:

With recession hit western countries downsizing on their imports, developing economies who export majority of their production to them have taken a hit.

China emerging stronger by the year with a growth rate of more than 20%.

Poor growth in the Indian plastics market with negativity of -32% in the year 2009-10.

Challenges:

INFRASTRUCTURE

Port and other facilities to handle inbound and out bound cargo

Internal transportation more road dependent, poor rail cargo facilities

POWER

Severe shortage in most of the states

LABOUR

Development in all areas increasing demand for labour and labour shortage

FINANCE

Cost of finance @ 10-12%

Strategies:

- ✓ Developing new FIBC models which provide innovation in bag design and utility.
- ✓ Enhanced distribution network
- ✓ Ability to produce value added and Speciality bags.
- ✓ Localised services (Direct Marketing and support)
- ✓ Mechanisation of few processes and increasing productivity.
- ✓ Joint efforts with handling system manufactures to help the end-users for the implementation
- ✓ Offer appropriate and accurate bag design
- ✓ Understand the user need and develop the product for users
- ✓ Develop the Product to fit with supply chain
- ✓ Ensure quality in the handling facility

AUDITOR'S REPORT

To the Members of Jumbo Bag Ltd

1. We have audited the attached Balance sheet of **JUMBO BAG LIMITED** as at March 31, 2010, the Profit and Loss Account and the Cash Flow statement for the year ended on that date, annexed thereto, signed by us under reference to this report. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We have conducted our audit in accordance with auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
 - 3.1 We have obtained all the information and explanations, which to the best of our Knowledge and belief, were necessary for the purposes of our audit.
 - 3.2 In our opinion, proper books of account, as required by law, have been maintained by the company so far as appears from our examination of those books.
 - 3.3 The financial statements dealt with by this report are in agreement with the books of account.
 - 3.4 In our opinion, the aforesaid financial statements comply in all material respects with the applicable Accounting Standards issued by the Institute of Chartered Accountants of India referred to in section 211(3C) of the Act.
 - 3.5 On the basis of written representations received from the directors, and taken on record by the Board of Directors, We report that none of the directors is prima facie disqualified as on March 31, 2010 from being appointed as a Director in terms of section 274 (1) (g) of the Act.
 - 3.6 In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements read with the statement on significant Accounting Policies and Notes to the Accounts, give the information required by the Companies Act 1956, (the Act) in the manner so required and also give a true and fair view, in conformity with the accounting principles generally accepted in India:
 - a. In the case of the Balance Sheet of the state of the affairs of the company as at March 31, 2010;
 - b. In the case of the Profit and Loss Account of the profit for the year ended on that date; and
 - c. In the case of the Cash Flow Statement, of the Cash Flows for the year ended on the date.
4. As required by the Companies (Auditor's Report) Order, 2003 issued by the Government of India in terms of section 227(4A) of the companies Act, 1956, and on the basis of such checks as we considered appropriate and according to the information and explanations given to us, we further report that:
 - 4.1 a. In our opinion, the company is maintaining proper records showing full Particulars including quantitative details and situation of fixed assets.

- b. The fixed assets have been physically verified under a phased programme of verification, which, in our opinion, is reasonable, and no material discrepancies have been noticed on such verification.
 - c. The company has not disposed off substantial part of its fixed assets during the year.
- 4.2
- a. In our opinion, inventories have been physically verified during the year by the management at reasonable intervals.
 - b. In our opinion, the procedures of physical verification of the inventory followed by the management are reasonable and adequate in relation to the size of the company and the nature of its business.
 - c. In our opinion, on the basis of examination of inventory records the Company is maintaining proper record of its inventories and no material discrepancies were noticed on physical verification.
- 4.3
- a. The company has neither granted nor taken any loans, secured or unsecured, to and from companies, firms or other parties covered in the register maintained under section 301 of the Act.
 - b. Since the company has neither granted nor taken any loans, secured or unsecured, to and from companies, firms or other parties covered in the register under 301 Of the Act, reporting under this clause does not arise.
 - c. In respect of such other loans given by the company, where stipulations have been made, they have generally repaid the principal amounts as stipulated and have been regular in payment of interest, wherever applicable.
 - d. In respect of such loans given by the company, there are no overdue amounts more than Rs. 100000.
- 4.4
- In our opinion, there is an adequate internal control procedure commensurate with the size of the company and the nature of its business with regard to purchase of inventory and fixed assets and for sale of goods and services. Further on the basis of our examination of the books and records of the company, we have neither come across nor have been informed of any continuing failure to correct major weakness in the aforesaid internal control procedure.
- 4.5
- a. The transactions made in pursuance of contracts or arrangements that need to be entered in the register maintained under section 301 of the Companies Act 1956 have been entered in the register.
 - b. In our opinion and according to information and explanations given to us, the transactions exceeding rupees five lakh each have been made at prices, which are reasonable having regard to prevailing market prices at the relevant time.
- 4.6
- In our opinion, the company has complied with the provisions of section 58A and 58AA or any other relevant provisions of the Act and the Companies (Acceptance of Deposit) rules, 1975 with regard to deposits accepted from public.
- 4.7
- In our opinion, the company has an internal audit system commensurate with its size and nature of its business.
- 4.8
- The Central Government has not prescribed maintenance of cost records under section 209(1)(d) of the Companies Act 1956, for the products manufactured by the company.
- 4.9
- a. According to the information and explanations given to us and on the basis of our examination of the records of the company, amounts deducted or accrued in the books of accounts in respect of undisputed statutory dues including Provident fund, Income tax, Sales Tax, Customs Duty, Service Tax and other material statutory dues have been generally regularly deposited during the year by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of Investor Education and Protection Fund, Employees State Insurance, Excise Duty, Wealth Tax.

There are no dues on account of Cess under 441A of the Companies Act, 1956 since the date from which the aforesaid section comes in to Force has not yet been notified by the Central Government of India.

According to the information and explanations given to us, no undisputed Amounts payable in respect of Income Tax, Service Tax, Customs Duty, Sales Tax and other material statutory dues that were in arrears as at 31st of March 2010 for a period of more than six months from the date they become payable.

- b. Details of dues towards sales tax, income tax and excise duty that have not been deposited on account of dispute are as stated in Note 15 of Notes to the accounts forming part of the financial statements.
- 4.10 The company does not have any accumulated losses as at March 31, 2010 and has not incurred any cash losses in the financial year ended on that date or in the immediately preceding financial year.
- 4.11 In our opinion, the company has not defaulted in repayment of its dues to bank during the year.
- 4.12 In our opinion the company has not granted any loans and advances on the basis of security by way of pledge of shares, debentures and other securities.
- 4.13 The provisions of any special statute applicable to a chit fund, nidhi, mutual benefit fund / societies are not applicable to the company.
- 4.14 In our opinion, the company is not dealing or trading in shares, securities, debentures and other investments. Accordingly the provisions of clause 4 (xiv) of the companies (Auditors report) order 2003 are not applicable to the company.
- 4.15 In our opinion, the company has not given any guarantee for the loans taken by others from banks and financial institutions.
- 4.16 In our opinion, the term loans availed by the company during the year were, prima facie, applied for the purpose for which they were obtained, other than temporary deployment pending application.
- 4.17 On an overall examination of the financial statements of the company, funds raised on short-term basis have, prima facie, not been used during the year for long-term investment and vice-versa.
- 4.18 The company has not made any preferential allotment of shares to parties and companies listed in the register maintained under Sec 301 of the Act.
- 4.19 Since the company has not issued any debentures, the provisions of clause 4(xix) of the Companies (Auditors report) order 2003 are not applicable to the company.
- 4.20 The company has not raised any money by way of public issues during the year.
- 4.21 In our opinion, considering the size and nature of the company's operations, no fraud of material significance on or by the company has been noticed or reported during the year.

NOTES TO THE FINANCIAL STATEMENTS

SCHEDULE 16.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of preparation of financial statements

- (a) The financial statements have been prepared and presented under the historical cost convention on the accrual basis of accounting and comply with the Accounting Standards issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 1956, to the extent applicable. The financial statements are presented in Indian rupees.
- (b) Accounting policies not specifically referred to otherwise are consistent and in consonance with generally accepted accounting principles.

2. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

3. Fixed assets and depreciation

Fixed assets are carried at cost of acquisition less accumulated depreciation. The cost of fixed assets includes freight, duties, taxes and other incidental expenses relating to acquisition. Where fixed assets have been acquired from a country outside India, the cost of these fixed assets also includes exchange differences (favorable and unfavorable) arising in respect of foreign currency loans on other liabilities incurred specifically for the purpose of their acquisition. Borrowing costs related to the acquisition or construction of the qualifying fixed assets for the period up to the completion of their acquisition or constructions are capitalized.

Depreciation is provided on the Straight Line Method from the day in which the asset is put to use. The rates of depreciation prescribed in Schedule XIV to the Companies Act, 1956 are considered as the minimum rates. If the management's estimate of the useful life of a fixed asset at the time of acquisition of the asset or of the remaining useful life on a subsequent review is shorter than that envisaged in the aforesaid schedule, depreciation is provided at a higher rate based on the management's estimate of the useful life or remaining useful life. Pursuant to this policy, depreciation on assets has been provided at the rates based on the estimated useful lives of fixed assets

Assets individually costing Rs 5,000 or less are depreciated at the rate of 100%.

Depreciation is charged on a proportionate basis for all assets purchased and sold during the year.

4. Revenue recognition

Revenue from sale of Manufactured goods, including scrap, is recognized on transfer of all significant risks and rewards of ownership to the buyer. The amount recognized as sale is inclusive of sales tax, custom duty, trade, Excise duty and quantity discounts on accrual basis.

Interest on deployment of surplus funds is recognized using the time proportionate method based on underlying interest rates.

- (i) TUF Interest : During the current financial year 2009-10, the company has earned Rs.77.71 Lakhs by way of Interest Subsidy from Technology Upgradation Fund maintained by the Central Government. Out of the said amount Rs.61.19 Lakhs relates to the previous year, and the same was recognized in the current year since the receipt of the same become certain only during the current year.

5. Inventories

Inventories are carried at the lower of cost and net realizable value. The comparison of cost and net realizable value is made on an item-by-item basis. Cost comprises purchase price and all incidental expenses incurred in bringing the inventory to its present location and condition.

The method of determination of cost is as follows:

- Spares and Consumables are valued at cost.
- Raw-Materials & Intermediates are valued at weighted cost – (net of MODVAT)
- Work-in-Process is valued at material cost plus Manufacturing Expenses.
- Finished Goods are valued at the lower of cost or net realisable value. Cost includes cost of conversion and other expenses incurred in bringing the goods to their location and condition inclusive of Excise Duty.
- Saleable / disposable stock of scrap is valued at estimated realizable value.

provision for inventory obsolescence is assessed annually and is provided as and when considered necessary.

6. Foreign exchange transactions

Foreign currency transactions are recorded at the rates of exchange prevailing on the dates of the respective transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the profit and loss account of the year, except that exchange differences related to acquisition of fixed assets from a country outside India are adjusted in the carrying amount of the related fixed assets.

Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated at the closing exchange rates on that date; the resultant exchange differences are recognized in the profit and loss account except those related to acquisition of fixed assets from a country outside India which are adjusted in the carrying amount of the related fixed assets.

7. Provisions and contingent liabilities

The Company recognizes a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions for onerous contracts, i.e. contracts where the expected unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognized when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event, based on a reliable estimate of such obligation.

**8. Tax on Income**

Income-tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year) provided in the books of accounts.

9. Earnings per share

The basic and diluted earnings per share are computed by dividing the net profit attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year. The Company did not have any potentially dilutive equity shares outstanding during the year.

EARNINGS PER SHARE	2009-10	2008-09
Profit available for equity share holder	Rs.59,12,432	Rs. 1,43,50,761
Number of Equity shares (Basic and diluted)	79,73,700	68,13,700
Earnings per Share	Rs.0.76	Rs. 2.11
Cash Earnings per Share	Rs. 3.09	Rs. 4.61

10. Retirement Benefits to Employees.**i Short Term**

Short term employee benefits are recognized as an expense as per the Company's Scheme based on expected obligations.

ii. Post Retirement

Post retirement benefits comprise of provident fund, superannuation and gratuity which are accounted for as follows:

a) Provident fund

This is a defined contribution plan. Contributions in respect of staff and workers are remitted to provident fund authorities in accordance with the relevant statute and are charged to profit and loss account as and when due. The Company has no further obligations for future provident fund benefits in respect of these employees other than its annual contributions.

b) Superannuation

This is a defined contribution plan. The Company makes contribution as per the scheme to superannuation Fund administered by Life Insurance Corporation of India. The Company has no further obligation of future superannuation benefits other than its annual contributions and recognizes such contributions as expense as and when due.

c) Gratuity

This is a defined benefit plan. Provision for gratuity is made based on actuarial valuation using projected unit credit method. Actuarial gains and losses, comprising of experience adjustments and the effects of changes in actuarial assumptions, are recognized immediately in the profit and loss account as income or expense

11. Deferred Tax Liability

Deferred Tax resulting from timing difference between book and Tax profit is accounted for under liability method, at the current rate of tax, to the extent, the timing differences are expected to crystallize.

**12. Intangible Assets****Impairment of Assets:**

The company assesses at each balance sheet date whether there is any indication that an asset including goodwill may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the profit and loss account. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

13. Dues to Micro, Small and Medium Enterprises:

The management is currently in the process of identifying enterprises which have provided goods and services to the company which qualify under the definition of micro, small and medium enterprises, as defined in Micro, Small and Medium Enterprises Act 2001.
